Profile

Doctor in computer science with five years of experience in management, teaching, and research in Mexico, the United Kingdom, and France.

My main research involves studying, adapting, and creating integrative cluster analysis approaches and their applications to different research fields such as digital healthcare, labour market, and network analysis.

I have abilities to write scientific articles, supervise students, management of research-oriented projects, and work with multidisciplinary research teams. Additionally, I am a member of the Mexican National System of Researchers, Level I (levels: C, I, II, and III), Conacyt, Mexico.

Academic Degrees

Doctor in Computer Science

Cinvestav-IPN, MEXICO

2013 - 2017

Evolutionary Clustering Approaches with Automatic Determination of the Number of Clusters and Clustering Criterion

Master in Computer Science

Cinvestav-IPN, MEXICO

2010 - 2012

Learning Topic maps from Relational Databases

Bachelor of Engineering

Technological Institute of Culiacan, MEXICO

2005 - 2010

A Social Learning Network with Recognition of Learning Styles Using ANNs

Professional Experience

Postdoctoral Research in Digital Health

Department of Computer Science, CRISAL Lab
University of Lille, FRANCE

03/2021 - today

The development of biclustering methods for analysing systemic sclerosis patients' digital health records to better understand disease complications and treatment goals.

Postdoctoral Research in Machine Learning

Department of Computer Science,
University of Exeter, UNITED KINGDOM

11/2019 - 03/2021

Develop a career guidance system (C3-IoC) for assessing student skills using a range of machine learning techniques, including identifying job role communities in networks using clustering techniques.

Postdoctoral Research in Unsupervised Learning

Alliance Manchester Business School
University of Manchester, UNITED KINGDOM

01/2018 - 10/2020

Development of a clustering approach for multi-view data problems (MVMC), which can integrate multiple data sources (views) and determine consensus clusters supported across the data views. MVMC was applied to classify breast lesions on ultrasound images.

Languages

Spanish	Native
English	Advanced
French	Beginner

Part-time Lecturer in Digital Technologies

Teacher Training and Educational Research
CRETAM, MEXICO

08/2017 - 07/2018

Teaching activities as a principal lecturer on the modules *Online Productivity Tools for Education* and *Digital Technologies for Education*.

Software Engineering Team Leader

SVAM International, MEXICO

09/2012 - 10/2013

Supervised the construction of a software product for a national beer company. The main modules of the system are in-store and en-route point-of-sale systems, inventory, and user management.

Publications in Peer-Reviewed International Journals

1. **A. José-García**, R. Everson, et al. *C3-loC: A career guidance system for assessing student skills using machine learning and network visualisation*. International Journal of Artificial Intelligence in Education, (2022) | DOI: **S40593-022-00317-y**
2. M. Garza-Fabre, J. Handl, **A. José-García**. *Evolutionary multi-objective clustering over multiple conflicting data views*. IEEE Transactions on Evolutionary Computation, (2022) | DOI: **TEVC.2022.3220187**
3. **A. José-García**, J. Handl. *What's in a distance? – Exploring the interplay between distance measures and internal cluster validity in multi-objective clustering*. Natural Computing Journal, (2022) | DOI: **S11047-022-09909-y**
4. **A. José-García**, J. Handl, W. Gómez-Flores, M. Garza-Fabre. *An evolutionary many-objective approach to multiview data clustering*. Applied Soft Computing, (2021) | DOI: **J.ASOC.2021.107425**
5. A. Ezugwu, A. Shukla, **A. José-García**, et al. *Automatic clustering algorithms: A systematic review and bibliometric analysis of relevant literature*. Neural Computing and Applications, (2021) | DOI: **S00521-020-05395-4**
6. A. Siegmund, B. Fu, **A. José-García**, et al. *Study and research on detection of fiber defects using keypoints and deep learning*. International Journal of Pattern Recognition and Artificial Intelligence, (2020) | DOI: **S0218001421500166**
7. **A. José-García**, W. Gómez-Flores. *Automatic clustering using nature-inspired metaheuristics: A survey*. Applied Soft Computing, (2016) | DOI: **J.ASOC.2015.12.001**
8. **A. José-García**, I. Lopez-Arevalo, V. J. Sosa-Sosa. *A rule-based approach for topic maps learning from relational databases*. Expert Systems, (2015) | DOI: **EXSY.12113**

Publications in Other Journals

- W. Gómez-Flores, **A. José-García**. *Una panorámica al agrupamiento de datos y sus aplicaciones*. In *Avances en Ingeniería y Tecnologías Computacionales*. Cinvestav Unidad Tamaulipas, Mexico, 2022, ISBN: 978-607-9023-65-2.

Publications as Chapter Books

- **A. José-García**, J. Jacques, V. Sobanski, C. Dhaenens. *Biclustering algorithms based on metaheuristics: A review*. In book: *Metaheuristics for Machine Learning: New Advances and Tools*, Edited by: Mansour Eddaly, Bassem Jarboui, Patrick Siarry, 2022 | DOI: **arXiv:2203.16241**

Publications in International Conference Proceedings

1. **A. José-García**, J. Jacques, A. Filiot, J. Handl, D. Launay, V. Sobanski, C. Dhaenens. *Multi-view clustering of heterogeneous health data: Application to systemic sclerosis*. In *PPSN XVII: The International Conference on Parallel Problem Solving from Nature*, p. 352–367, 2022.

2. **A. José-García**, W. Gómez-Flores. A survey of cluster validity indices for automatic data clustering using differential evolution. In *"GECCO'21: The International Conference on Genetic and Evolutionary Computation"*, p. 314–322, 2021.
3. **A. José-García**, J. Handl. On the interaction between distance functions and clustering criteria in multi-objective clustering. In *"EMO 2021: The International Conference on Evolutionary Multi-Criterion Optimization"*, p. 504–515, 2021.
4. **A. José-García**, J. Handl, W. Gómez-Flores, M. Garza-Fabre. Many-view clustering: An illustration using multiple dissimilarity measures. In *"GECCO'19: The International Conference on Genetic and Evolutionary Computation"*, p. 213–214, 2019.
5. **A. José-García**, W. Gómez-Flores. Evolutionary clustering using multi-prototype representation and connectivity criterion. In *"MCPR'17: The Mexican Conference on Pattern Recognition"*, p. 63–73, 2017.
6. **A. José-García**, I. Lopez-Arevalo, V. J. Sosa-Sosa. Building topic maps from relational databases. In *"CCE'12: The International Conference on Electrical Engineering, Computing Science and Automatic Control"*, p. 294–299, 2012.
7. **A. José-García**, H. Romero-Monsivais, C. Hernández, A. Rodríguez-Cristerna, I. Rivera-Islas, J. Torres-Jiménez. A simulated annealing algorithm for the problem of minimal addition chains. In *"EPIA'11: The Portuguese Conference on Artificial Intelligence"*, p. 311–325, 2011.
8. A. Rodríguez-Cristerna, J. Torres-Jiménez, H. Romero-Monsivais, C. Hernández, I. Rivera-Islas, **A. José-García**. A mutation-selection algorithm for the problem of minimum Brauer chains. In *"MICAI'11: The Mexican International Conference on Artificial Intelligence"*, p. 107–118, 2011.
9. R. Zatarain-Cabada, M. L. Barrón-Estrada, V. Ponce Angulo, **A. José-García**. A framework for creating, training, and testing self-organizing maps for recognizing learning styles. In *"Edutainment'10: The International Conference on E-learning and Games"*, p. 53–64, 2010.
10. R. Zatarain-Cabada, M. L. Barrón-Estrada, V. Ponce Angulo, **A. José-García**, C. A. Reyes García. Identification of Felder-Silverman learning styles with a supervised neural network. In *"ICIC'10: The International Conference on Intelligent Computing"*, p. 479–486, 2010.
11. R. Zatarain-Cabada, M. L. Barrón-Estrada, V. Ponce Angulo, **A. José-García**, C. A. Reyes García. A learning social network with recognition of learning styles using neural networks. In *"MCPR'10: The Mexican Conference on Pattern Recognition"*, p. 199–209, 2010.

Teaching

- **Cluster Analysis** (Unsupervised Machine Learning topics) | Invited Lecturer
2021 | Spring term | 4 hrs | Master level | Cinvestav-IPN, Mexico
- **Fundamentals of Machine Learning (COM1011)** | Teaching Assistant
2020 | Autumn term | 40 hrs | Bachelor level | University of Exeter, United Kingdom
- **Online Productivity Tools for Education** | Main Lecturer
2018 | 40 hrs | Graduate level | Regional Centre for Teacher Training and Educational Research (CRETAM), Mexico
- **Digital Technologies for Education** | Main Lecturer
2017 | 40 hrs | Graduate level | Regional Centre for Teacher Training and Educational Research (CRETAM), Mexico

Management and Supervision of Projects

- **An AI-based Career Guidance System for Assessing Student Skills (C3-IoC)** | Research project
Nov 2019 – March 2021 | University of Exeter, United Kingdom
Team: Academic researchers and IBM developers
- **A Cognitive Behavioural Therapy Mobile Application (CBT App)** | Undergraduate student project
Sep 2020 – Jan 2021 | IoC Student Enterprise, University of Exeter, United Kingdom
Students: Brian Evans and James Bradford
- **A Telematics Driving Behaviour Mobile Application (TEL App)** | Undergraduate student project
Aug 2020 – Dec 2020 | IoC Student Enterprise, University of Exeter, United Kingdom
Students: Peranavie Thangasuthan and Benedict Rangasamy

Software Publicly Available

- **CVIK**: A cluster validity index toolbox for automatic determination of the number of clusters
<https://github.com/adanjoga/cvik-toolbox>
- **MVMC**: An evolutionary many-objective approach to multiview clustering using feature and relational data
<https://github.com/adanjoga/mvmc>

Seminar and Talk Invitations

- **Aprendizaje no supervisado: fundamentos y aplicaciones**
Foro Nacional de Tecnologías de Información y Sistemas Computacionales, *Universidad Politécnica de San Luis Potosí*.
Invited by: Dr Francisco Cruz Ordaz Salazar, September 2021, San Luis Potosí, Mexico. **Online seminar**.
- **An evolutionary multi-objective approach to multiview data clustering**
University of Exeter. Invited by: Prof Richard Everson, March 2020, Exeter, United Kingdom.
- **Multiview data clustering with application to breast lesions classification**
Cinvestav-IPN. Invited by: Dr Miguel Morales-Sandoval, October 2019, Ciudad Victoria, Tamaulipas, Mexico.
- **An unsupervised machine learning approach for the classification of breast ultrasound image data**
Universidad Autónoma de Tamaulipas. Invited by: Dr Ana Ríos Alvarado, October 2019, Tamaulipas, Mexico.
- **Multi-view clustering – An illustration using multiple dissimilarity measures**
University of Manchester. Invited by: Dr Richard Allmendinger, March 2019, Manchester, United Kingdom.

Dissemination of Scientific Knowledge

- I have been strongly committed to outreach initiatives to popularise science and scientific careers to high-school students. For instance, I have given over ten dissemination talks on digital technologies, and I have co-founded the project **Mexiciencia**.
- Creation of an **interactive and dispersion map** of the COVID-19 pandemic in Mexico.
- Publication of a **general-public article**: W. Gómez-Flores and **A. José-García**. Una panorámica al agrupamiento de datos y sus aplicaciones. In *Avances en Ingeniería y Tecnologías Computacionales*, Cinvestav-IPN, Mexico, 2022.

Professional Services

Conference Program Committee Membership

- **GECCO**: The Genetic and Evolutionary Computation Conference
Editions: Lille, France (2021) | Boston, USA (2022)
- **WCCI**: IEEE World Congress on Computational Intelligence / **CEC**: Congress on Evolutionary Computation
Edition: Padua, Italy (2022)
- **ECML**: The European Conference on Machine Learning
Editions: Bilbao, Spain (2021) | Grenoble, France (2022)
- **CCE**: International Conference on Electrical Engineering, Computing Science and Automatic Control
Editions: Mexico City, Mexico (2020) | (2021) | (2022)

Reviewer of JCR Journals

- **TEVC**: IEEE Transactions on Evolutionary Computation
- **CYB**: IEEE Transactions on Cybernetics
- **CSUR**: ACM Computing Surveys
- **PR**: Pattern Recognition

- **ASOC**: Applied Soft Computing
- **SWEVO**: Swarm and Evolutionary Computation
- **COR**: Computers & Operations Research
- **HELIYON**: Heliyon
- **CAIS**: Complex & Intelligent Systems
- **COIN**: Computational Intelligence

Awards and Achievements

- **2022 – 2024** | Member of the Mexican National System of Researchers | **Level I** (levels: C, I, II, III)
- **2019 – 2021** | Member of the Mexican National System of Researchers | **level Candidate** (Levels: C, I, II, III)
- **2018 – 2019** | CONACyT Postdoctoral Fellowship
- **2013 – 2017** | CONACyT Postgraduate Fellowship
- **2010** | First Place in the Mexican National Fair of Science and Engineering 2010 | **Project**: *An adaptive social learning network with recognition of learning styles.*
- **2007** | Professional IBM Certification in *Object-Oriented Analysis and Design* | ID: P39LAM5071
- **2007** | Sun Microsystems Certified Programmer for *Java 2 Platform* | ID: P68LAM50A5

Computer Skills

- **Programming languages**: MATLAB, C, C++, Python, Java
- **Mathematical tools**: MATLAB, R, numpy, pandas, scikit-learn
- **Web developer**: Markdown, HTML, CSS, PHP, Javascript
- **Typography**: \LaTeX , Markdown, LibreOffice/OpenOffice, Microsoft Office
- **Miscellaneous**: R, Git, MPI, CUDA, PThreads

Lille, France, November 2022
